This assignment includes problems related to paired samples and analysis of two-way categorical data.

1. Exercise 9.2 (page 356). (Note. If you wish, you can use the `t.test` command in R with the option `paired=T` to do this problem.)

2. Exercise 9.6 (page 357).

3. Exercise 9.24 (page 373).

4. Exercise 9.32 (page 378). (Note. If you wish, you can use the `t.test` command in R with the option `paired=T` to do this problem.)

5. Exercise 10.1 (page 392).

6. Exercise 10.3 (page 392).

7. Exercise 10.6 (page 393).

8. Exercise 10.18 (page 402).
